

# BarTender® Resellers Find it Easy to be Labeled a Genius

You produced samples of your client's compliance label design in under three hours. And you never even bothered with the manual because BarTender's "look and feel" seemed so familiar. Integration with the client's ERP software was straightforward too, with "wizards" that quickly connected directly to the back-end database using OLE DB. Before you knew it, you were automatically triggering

label print jobs in response to standard inventory events and driving multiple high-speed RFID-capable printers. Sure, you peeked at the help system a few times. But, wouldn't it be great if *all* your software was this easy (and came with *free* tech support)? Now your clients think you're a genius!
