

BarTender® Professional Services

The BarTender® professional services team delivers time to market, maximizes solution value and provides continuous expert support to give your business a powerful competitive advantage.

Our team's expertise and collective decades of experience are proven across myriad deployment scenarios requiring focused and specialized problem-solving skills. We've managed enterprise labeling deployments that feature ERP integrations, enabled intricate data management schema and built centrally managed installations that span thousands of global sites — in highly regulated environments, in every industry, and across every geography.

We're here to design and deploy the optimal solution to fit your needs.

BarTender QuickStart

A two-hour remote product overview designed to get you up and running. The session can cover any BarTender-related topic or scenario.

- ▶ Installing BarTender and setting up the BarTender system database
- ▶ Importing system databases from legacy environments
- ▶ Basics of the BarTender interface
- ▶ Printer Drivers by Seagull™ installation
- ▶ Hands-on template and label design
 - ▶ Connecting to databases
 - ▶ Data manipulation through transforms
 - ▶ Creating print-time prompts
- ▶ Using the BarTender companion applications like Librarian and Print Portal
- ▶ Building a BarTender security profile
- ▶ Integrations, specific to your goals and use case

Please note:

Remote sessions are conducted via online conference tools providing both audio and visual instruction and screen and desktop control sharing.

QuickStart is a time-based consultative offering and our team will address items of your choosing within the 2 hour time allocation. If you have a specific objective for your QuickStart Session that will require more time, please choose our Consulting offering and we will tailor the session to your needs.

BarTender solutions consultants may provide action items prior to sessions to ensure you get the most from your investment. You may be asked to provide Administrator-level credentials and to provide access to network resources.

BarTender Consulting

We start by listening to you.

For those customers who need help designing, building and deploying their labeling system, our time-tested discovery process helps us understand your challenges, assess your existing systems and quantify your desired goals. And we remain with you every step of the way, through final deployment, training and technical support post-launch.

We provide professional services by the hour both remotely and on-site.

Some of the other consulting services that we offer include:

- ▶ Custom training
- ▶ Converting existing label files to BarTender formats label design
- ▶ Integration design
- ▶ Custom solution development
- ▶ Consultation about BarTender installations and upgrades
- ▶ Migration of BarTender deployments
